

Waagene Purifier with one main filter for pressurised systems

Description

Applications

Azipods, thrusters and stern tube on board vessels. It can also be used on all other hydraulic systems. Purifier can purify lubricating systems as well.

Specifications

- **Capacity:** 600 litres/24 hour
- **Oil volume:** Up to 3,000 litres (flow in the system / tank to be cleaned)
- **Oil type:** All hydraulic and lubricating oils
- **Viscosity:** 32 - 320
- **Max pressure in:** 200 bar (with reduction valve) 3 bar as standard
- **Max back-pressure:** 8 bar
- **Filter cartridge use:** About 4 a year in continuous use, and under normal conditions
- **Power consumption:** 2,400 watt, 230 volt, 16 amp circuit
- **Connection:** 3/8" BSP external thread
- **Warranty:** 12 months
- **Weight:** 45 kg
- **Dimensions:** 64 x 45 x 47 cm (H x W x D)
