

For engine oil on generators and standby engines. Two main filters that clean 1,200 litres / 24 hours.

Description

The unit is designed for continuous cleaning of engine oil on generators and standby engines. It increases the oil's lifetime, reduces wear and tear and keeps the engine 'ready for action', at all time.

- **Capacity:** 1,200 litre / 24 hours
- **Flow:** Oil tank with up to 500 litre in the sump
- **Oil type:** Engine oil
- **Electrical connection:** 230V, 16 amp, single phase / 400V, 16 amp, three phased
- **Max power consumption:** 500 watt
- **Warranty:** 12 months
- **Weight:** 60 Kg
- **Dimensions:** 70x54x51 cm (HxWxD)

Purity rate in continuous use

- **Water:** Down to 500 ppm (0,05%)
- **Particles:** Nominal down to 1 micron
